

TBIAS

Risk and insurance service provider

Client profile

From the mega blue-chip corporates to privately owned SMEs, TBIAS acts for all business sectors from aviation, energy, manufacturing, financial services, retail, technology and more.

TBIAS has experience at supporting insureds with submissions for all classes of insurance including property, liabilities, financial lines, cyber, personal accident, motor, workers compensation etc.

Advantages

A professional approach to compliance with the Duty of Fair Presentation minimises the risk of insurance coverage denial.

A professional submission that is designed to support your insurance strategy has the potential to differentiate your business, engage insurance markets, build credibility and support from within your business and optimise your position during insurance negotiations.

Our capabilities

Insurance Act compliance advice and support, project scope and planning, resource management, information security and brand compliance.

Insurance technical support and advice, policy wordings, risk exposures, risk management, claims processes, submission content authorship.

Data collection, collation, analysis and validation. Organising and merging data sets. Recording and storing data in a data base. Specifying and using RMIS. Document and file management.

Creating questionnaires, templates and style guides. Managing content and report production. Editing and proof reading.

Branding, design and print and web production and management, support with website product design and design implementation. Technology solutions and IT security.

Insurance Disclosure Renewal Plan

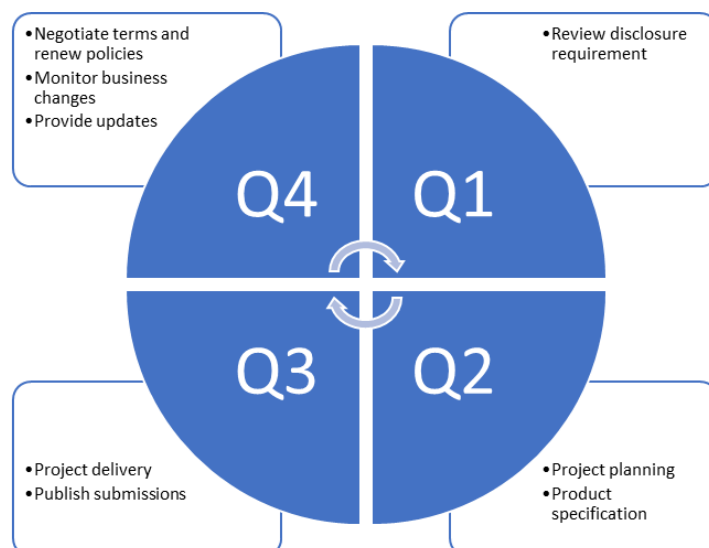

Requirement

Comply with The Insurance Act 2015. The Act increased the onus on insureds to perform and demonstrate that they have undertaken a 'reasonable search' and made a 'fair presentation'.

Market your risk profile to obtain the best available and most appropriate insurance policy terms at the best available price from insurers.

Annual Insurance Disclosure Cycle

Implement an annual insurance disclosure cycle to fulfil your insurance disclosure obligations.

Solution

TBIAS provides a one-stop-shop solution to resourcing and delivering insurance disclosure processes and submissions, featuring:

- Insurance disclosure governance and processes
- Project planning including content specification
- Data sourcing, mapping, collection and collation
- Data analysis and reporting
- File management, handling and organising
- Submission report writing
- Document formatting, structuring, editing and proofing
- Production of 'fair presentation'
- Password protected and encrypted submission websites
- Monitoring and tracking distribution of insurance information
